

## PRODUCT DESCRIPTION

The Solar LED Street Light is the perfect solution for lighting large spaces outdoors at night. This product will serve well as a street or parking lot light but can also be used to light small outdoor sports venues like a basketball court, skate park or tennis court. It's never been easier to install outdoor lighting. Forget about expensive trenches and fancy electrical setups. Use this light to save on installation and electricity and keep your driveway, parking lot, pool area or basketball court bright.
